- G Venkatappa Memorial EM HS - Pulivendula
Secondary School Certificate
2015 - 2016 with 95%

About Me

Passion for developing scalable web applications and working across the full stack, love to code and give solutions to real time applications. Coding is challenging which makes me invest more time and effort into it.

Projects

Signup Portal

<https://github.com/akshayandy/Signup>

- Built Using Spring Tool Suit.
- Integrated the Signup page with a database to store user data securely and efficiently.
- Login page that authenticates users by comparing their entered data with the data stored in the database.
- Designed a "Sorry user not found" prompt that displays if the user's entered data does not match the data in the database.
- Created a user portal that opens upon successful login.
- Implemented a logout feature that allows users to securely end their session and return to the Login page.

Book Store Management

<https://github.com/akshayandy/BookStoreManagement>

- Built Using Spring Tool Suit.
- Developed a web-based portal for managing books, allowing users to add new books with detailed information.
- Implemented key functionalities, such as modifying book details, deleting books, and registering new books.
- Created a backend database to store and manage book data, utilizing SQL to ensure efficient data retrieval and manipulation.
